

Bidvest Mobility expands its range of intrinsically safe mobile computers for hazardous applications

Issued by [Bidvest Mobility](#)

9 Jun 2020

[Bidvest Mobility](#), a leader in mobile computing and barcoding solutions, has expanded its range of intrinsically safe mobile computers to meet the demand in the mining, oil and gas and other environments to digitise tasks in hazardous areas.

The range of [intrinsically safe mobile computers](#) and accessories include the global Ecom and Honeywell brands, with many of the products complying to safety standards, such as ATEX Zone 2/22 and Div. 2, as well as Zone 1/21 and Div.1.

According to Luke Dunstan, Executive Head of Sales at Bidvest Mobility, intrinsically safe mobile devices are used to improve workforce productivity, data quality, and the speed and accuracy of decision-making in hazardous, non-hazardous, and non-incendive applications in industrial environments.

“These mobile devices can be seamlessly integrated to backend software systems and operations, providing management with accurate, real-time data which can be mined to make more informed decisions,” he adds.

Bidvest Mobility’s national help desk, repair centre, certified technicians and other professional support services ensure that a company’s mission-critical mobile solutions and devices are always up and running and there are no costly operational interruptions.

About Bidvest Mobility

Bidvest Mobility, part of the Bidvest Group, has years of expertise in providing mobile computing and barcoding solutions that harness the power of mobile technologies to meet the most demanding business challenges whilst driving transformation throughout the supply chain.

By combining the best-in-class enterprise mobility components – the right mobility platform, application software, mobile technologies and a range of support services - Bidvest Mobility ensures seamless planning, development, integration, implementation and management of mobile applications to world-class standards. Their solutions are deployed across the supply chains of leading FMCG, retail, transport & logistics and industrial companies throughout South Africa.
