

# Dude! Wa's My Phone?

Your favourite Dude, Dean September, returns in "Dude! Wa's My Phone?" Award-winning Jeremeo Le Cordeur writes and performs in this production by Vulture Productions in collaboration with Kreative Beings, set to run at Artscape from 4-8 June, coinciding with National Youth Day celebrations.

When Dean September discovers his missing phone, the young entrepreneur embarks on a journey filled with comedy, tragedy, and technology as he retraces his steps. With the support of his friends, voiced by Dean Dorvan Balie, Veronique Jephtas, Lee Roodt, Chenal Kock, and a special appearance by #OumaLilly, Dean quickly realises that his world no longer makes sense without his phone.

This production isn't merely a play; it's a journey into the heart of today's digital world, tailored for young audiences. From exploring the highs and lows of digital consumption to delving into the concept of virtual phone addiction, the performance sparks essential conversations about our relationship with technology.
