

World class acts to join Timbaland at the Extra Cold Music Concert

On Saturday, 7 June, 2014, Castle Lite will be hosting the Extra Cold Music Concert at SuperSport Park, Centurion - exclusively produced by Grammy Award-winning Timbaland. Not only will the legendary producer be performing at the event, but fans can also expect rapper Nas to perform a selection of tracks from his debut album, "Illmatic", reworked with his specially created Illmatic orchestra.

A host of artists, including the likes of Mi Casa, Spoek Mathambo, Black Coffee, Zakes Bantwini, DJ Clock with Beatenberg, and Reason will also feature. Fans can also expect to see an #ICE collaboration between Timbaland and a local South African artist, who the producer will personally choose to collaborate with for this event.

Not only will the event host the best in local and international music brought to you by some of the hottest DJs and artists, but the venue itself will be transformed into a state-of-the-art, open-air musical experience, with sensational sound, epic LED visuals as well as innovative Castle Lite bars and chill zones. Concert-goers will also have the opportunity to download the freshest music performed at the event from the Extra Cold Music platform straight to their mobile phones, at the free Wi-Fi zones situated around the venue.

All-white dress code

Be one of 20 000 music fans making a statement in an all-white dress code, representing the brand's ongoing support of responsible drinking and encouraging all South African's to "Regret Nothing" by consuming alcohol responsibly and rethinking their reckless attitude towards drinking and driving.
