

Prime Circle to hold global streaming event from Ticketpro Dome

Prime Circle will hold a global streaming event, called Music In Empty Spaces, from the Ticketpro Dome in Johannesburg on 28 February 2021.

“20 years ago, we were honoured to be the opening act for the world-renowned rock band +Live+, during their Birds Of Prey tour, it was this show, and our performance of “Hello”, held at the legendary Ticketpro Dome, that ultimately changed the course of our lives. With this deep history, the venue is extremely sentimental to us,” says Ross Learmonth, frontman for Prime Circle.

The Covid-19 restrictions have had a devastating effect on the livelihood and morale of artists worldwide, as live-shows generally make up the largest portion of an artist's income. Prime Circle are adamant that the pandemic will not collapse them as a band, and the industry as a whole, thus the move to continue as passionately and professionally as they know-how. "Times have changed, but the show must go on," adds Learmonth.

Viewers can expect to hear Prime Circle's greatest hits like; "Hello", "She Always Gets What She Wants", "Pretty Like The Sun" as well as their latest single, "Innocence", in an interactive, 90-minute performance, backed by the massive sound and lighting production, that the band is known for.

Tickets are available for purchase at [Computicket](#).
