

# Microsoft forgets its manners, ponders middle finger emoji

By [Mmolisi Sikupela](#)

8 May 2015

According to the [Emojipedia blog](#), Microsoft will introduce new emojis to Windows 10 and one of them will be sure to raise a few eyebrows....

The potentially offensive new emojis © Image source: [Memeburn](#)

The proposed middle finger emoji comes in six different shades to add variety to the insult.

The emoji has been available on other networks and platforms for a while but has remained absent from iOS, OS X, Android and Windows. But Microsoft is about to change that.

Other emojis spotted on the forthcoming Windows 10 update includes a face with "okay" gesture, a reversed hand with middle finger extended, and a flushed face, just to mention a few.
