

Seedstars finalists from Middle East, North Africa

Seedstars MENA is coming to Bahrain to organise the closing event of its Middle East and North Africa tour with the MENA Summit on 14 December 2017, where it will gather all the local winners of the region along with 350+ registered attendees, including regional investors, mentors, entrepreneurs and corporates.

It's also the last step before the [big final](#) of Seedstars World Competition that will take place in April in Switzerland where the startups will compete with the finalists of the other regions – Latin America, Asia, Africa, Central & Eastern Europe – in order to win \$500,000 investment! Discover the finalists from the Middle East and Northern Africa:

- United Arabic Emirates – [Junkbot](#) is a DIY robotic kit that helps you turn your junk into robotics.
- Lebanon – [Vision in Motion](#) has developed a B2B software solution that helps retailers understand their customers using security cameras and computer vision.
- Bahrain – [WNNA](#) is an AI-driven contextual search system that uses Big Open Data & Semantic Web to provide users with personalized recommendations & actions.
- Jordan – [3oun](#) is an on-demand mobile application that connects you with vetted handymen around you.
