

# SDF

Skills Development Facilitator

Why SDF?

As SDF you will be responsible for the development and planning of a company's or group of companies) skills development strategy for a specific period. This will include the development and implementation of an annual WSP and the submission of the training reports.

You will serve as a valuable resource to the employer with regard to the criteria required for accreditation of courses, skills programmes and learnership development.

MICT Seta has decided that all SDFs (and ISDFs) must either have a degree or must have done an SDF training programme.

Please note that this will be compulsory for the 2013 submission, failing which the 2013 ATR/WSP submission will not be approved.

How can ATG help?

Academy Training Group offer workshops providing you with high quality SDF training.

Training will consist of a four day workshop covering all six unit standards included in the SDF qualification.

Thereafter you will have a four week Self Study period to work through the portfolio followed directly by a one day finalizing Workshop to finalise and assist delegates with portfolio building.

Our staff and facilitators bring to the association a multiplicity of experience and perspective which enhances energy, inquiry and exchange on a personal scale not easily achieved in some other institutions.

We pride ourselves in developing relationships with our customers allowing us to truly understand your needs and identify training solutions that are right for you.
