urbantonic increases business by 30%

A Cape Town based events hire and services company, urbantonic, has reportedly achieved a 30% increase in growth since January last year, in a stressed economy that has seen a number of medium-sized event supply businesses closing their doors. It provides everything associated with a successful event, employs 18 permanent staff and an additional 20 through the high season. Past and present clients include Porsche, Investec, BOE, Woolworths Financial Services and Wedding Concepts. For more, go to www.urbantonic.co.za.
