Dream Mapping and Goal Setting Workshops

Set up your life powerfully by spending a full day on a Dream Mapping and Goal Setting Workshop to get clear on your dreams, 'map-out' your goals and focus on the direction for your life.

Want to live your dream life and do what you love?
But not sure how to?
Just think: When you are driving, you know where you want to go and you plot out your route. When you plan and prepare a meal, you follow a recipe and monitor the food as it cooks. How much attention do you give to planning the direction of your life?
Set up your life powerfully by spending a full day on a Dream Mapping and Goal Setting Workshop to get clear on your dreams, 'map-out' your goals and focus on the direction for your life.
Take the time for YOU - to review your life, re-evaluate what you are doing and where you want to go. To ensure you are on track for what you most want.
During this fun full-day workshop you will...
1. Create a Vision Board (Dream Map)
2. Come up with a WIG (Wildly Improbable Goal) that inspires you
3. Learn tools for creating through the mind and manifesting
4. Learn how to overcome your fears
5. Build a Supporting Cast - to support your success
