

Meet and Code appoints HLS as its integrated communications agency

The European youth digital skills initiative, Meet and Code, has once again appointed Hook, Line & Sinker Communications (HLS) as its integrated communications agency.

Supported by SAP, Haus des Stiftens and TechSoup Europe, Meet and Code aims to reduce the digital skills gap in Europe. It does this by funding non-profit organisations across the continent to run digital and programming events for young people aged 8-24.
