

Westcliff gin receives bronze at American craft spirits competition

Westcliff's copper pot distilled Joburg dry gin received a bronze medal in the best International Contemporary Gin category at the 2017 American Distilling Institute's (ADI) craft spirits competition. The dry gin was also named Best Gin at the Michelangelo International Wine & Spirits Awards at the end of last year.

The gin contains an infusion of botanicals native to Africa, including Buchu leaves and IsiPhephetu (African Ginger), with undertones of juniper and coriander.
