

Mount Grace selected a spa finalist

The Mount Grace has been selected as a finalist for the 2010 Professional Beauty Awards Resort Spa of the Year, which recognises those who make a real difference to the industry and encourage its development.

After refurbishing and expanding its spa last year, Mount Grace has overhauled its offering by introducing new top international body and nail care products and treatments that promote skin healing and regeneration.

Mount Grace Spa offers over 15 different facials, body wraps and an extended treatment menu for men. New internationally renowned product ranges have been introduced: Babor and Mary Cohr for skin and body treatments and OPI and Spa Licious for pedicures and manicures.
