

# Malibongwe Manono obtains chemical engineering PhD in a flash

Malibongwe Manono concluded his PhD in chemical engineering at the University of Cape Town in three-and-a-half years. Manono completed his doctorate while working as a lecturer and supervisor to a number of postgraduate students.

He will graduate on Friday, 12 July 2019. After graduation, he will continue supporting undergraduates and postgraduates while pursuing research and preparing to become an associate professor.
