

## Large format printers from Canon

Canon Europe has recently launched three new imagePROGRAF large format models, the 44-inch iPF8300 and the 24-inch iPF6350 and iPF6300, for professional photographic, proofing and graphic arts markets. According to Prakash Naidoo, product manager at Canon SA, “Key findings in the group's own insight research reports over the past two years have pinpointed large format as a growing business opportunity for a number of print-related market sectors.
