

New Afrikaans online accommodation-booking website

A new Afrikaans online accommodation-booking website, LekkeSlaap.co.za, launched earlier this month. It has reportedly become one of the top Afrikaans brands on Facebook, with more than 27,500 fans and thousands of unique visitors since its launch on 4 March 2013. The website has been created by the same team that founded the award-winning TravelGround.com. While users can easily search, click, choose, book and confirm conveniently online, it also has friendly Afrikaans-speaking agents ready to help. For more, go to www.lekkeslaap.co.za.
