"This is a competitive sector, and standing out means taking an uncompromising stance on service excellence and consistent high-quality delivery," says JHB Removals owner and founder Bradley Moore, adding that over a decade in the business has allowed him to hone the company's offerings to make for a move without all the attendant shakes.

Top-rated SA moving company

"Everything we do is geared to eliminate or at the very least limit the stress of moving," says Moore. The service starts with lightning-fast [online removal quotes](#), followed up by efficient, friendly, and experienced operators. The company offers safe and affordable packing services as well as protective packing and wrapping of household and office furniture. Removal and reassembling is all done with minimal disruption, making both home and office moves a cinch – with fewer missed business hours. Storage options are also available.

JHB Removals is geared to handle your move from a house, flat, office, or even of a single item. "Actually, there's a growing need for smaller removals, particularly with many people having to cut costs during the pandemic, as rental leases are cut short or houses are having to be sold," says Moore. JHB Removals does mini moves (man and van rental) too, and the company offers huge savings with the option of "part-load"/load share moves for long-distance moves.
