

Top toy choices for Christmas

According to Toys R Us, the top toy choices for Christmas are creative play, outdoor fun and technology toys and games.

"We have travelled extensively over the past year in search of toys to bring our valued customers," says Issy Zimmerman, director, Toys R Us South Africa.

Favourites include the Furby, the electronic robotic toy which loves to talk, dance eat and be tickled as well as a popular imported bike range, Huffy, which comes with great protective gear. XBOX 360, Nintendo and LeapFrog are joining the party, with a wide range of games and consoles. Popular old timers Barbie and Hello Kitty for girls as well as Lego also have exciting ranges.

"Price and range are important for our customers as is convenience. The company's online ensures customers can choose their own shopping hours and browse through products without time pressures," he adds.
