

New vice-president of operations at Solairedirect Southern Africa

Solairedirect Southern Africa has announced the appointment of Warrick Leslie as vice-president of operations. Prior to joining Solairedirect, he was a director of Murray & Roberts Construction, Western Cape.

His responsibilities will include design, engineering, procurement and construction activities. Leslie has more than 20 years' experience of delivering high-value construction projects in southern Africa, and holds a civil engineering degree and an MBA.
