

Science voices 2014 - Call for entry

Interested in learning how to write about your research for a popular audience and getting published in the Mail & Guardian?

We are looking for master's and doctoral candidates at South African universities who want to work with the M&G's science editor, Sarah Wild, to have their writing published in a collection of South Africa's best postgraduate science writing.

The M&G will be running a series of vodcasts with Sarah Wild, to tell you what we are looking for in submissions and how to write science for newspapers. They will be live by Friday 11 April 2014.

You can enter with your existing article of 800 to 1000 words. Submissions close on Sunday 1 June 2014 at midnight. Successful applicants will be informed via email by the end of June.

If you have any queries, contact sciencevoices@mg.co.za.
