

New Sandton City Dis-Chem store to open

A new Dis-Chem flagship store is to open in Sandton City Shopping Centre in Johannesburg on 1 April 2018.

The 1,800m² store will occupy a significant portion of the space vacated by Stuttafords at Sandton City and will be finished with decorative timber, flush-plastered ceilings, tile inserted patterns and decorative hanging lights in certain areas.

A focal point of the store will be its beauty and cosmetic aisle, which is designed to create a visual link onto a special offering at the end of the aisle.
