

Nespresso expands with more booth openings

Nespresso has expanded with the opening of more Nespresso booths around the country.

Nespresso has a total of 11 stores in South Africa, which includes six boutiques and five booths. The newest additions are located at the recently revamped Cresta Shopping Centre as well as Eastgate Mall in Johannesburg.

The new booths provide an additional outlet and recycling drop-off point for used Nespresso capsules. Nespresso will also increase its availability even more with numerous booths scheduled to open nationwide in the next few months.
