

Annual salary survey now open

The third annual salary survey is being run on the Careers24 portal between 8 October and 6 November 2009. The survey will again explore salary variations across industries, companies and regions in order to identify year-on-year trends; however, South African corporate culture will also be investigated. Entrants can win a R5000 cash prize. The Da Vinci Institute will reveal results early in 2010. To participate, go to www.careers24.com.
