

## Constantia Craft Beer Project Festival end February

The Craft Beer Project will launch its promotional year at the Constantia Craft Beer Project Festival 23-24 February 2013 at The False Bay Rugby Club. It will offer 15 local and international craft beer brewers along with delicious slow food stalls and local wineries.

It will also launch 'brew bucks', a new concept that allows festival goers a chance to buy tastings and food with this new currency.

This summer craft beer festival celebrates the craft of brewing in a friendly atmosphere for the family, offering activities for the kids, while parents try out the brews.

"The Craft Beer Project looks forward to this event, particularly as it is the first one geared towards a family atmosphere and fun in the sun," says Greg Casey, co-owner of The Craft Beer Project.
