

Cape Town, Western Cape bags best stand award

Cape Town and the Western Cape were (plural) awarded for having the best stand at Africa's Travel Indaba 2018 in Durban.

The stand was designed and manufactured using green principles, 50% of the booth is re-palpable and constructed using recycled paper waste material. The steel used for the frame is repurposed from the 2016 and 2017 stands.

The stand has a low carbon footprint and is fully flat packed for transport, lightweight and modular.
