

# AfriSky Forum 2013

The only Pan-African event dedicated to the strategic, technical and operational issues surrounding air traffic management

The Afrisky Forum is a must attend event that brings together government officials, civil aviation authorities, airport operators, airlines, ANSPs, investors, advisers and the industry's leading technology providers, to discuss the challenges of efficiently delivering a future airspace strategy for Africa. This event will feature over 40 industry-elite speakers who will showcase and discuss opportunities for the implementation of new operational procedures (enabled by technology), to increase the safety and efficiency of air traffic management in the African Continent. The forum will focus on opportunities for modernisation programmes of the continent's airspace systems and regulatory policies, with the ultimate goal of helping to shape a strategy and give a common road map for airspace development across Africa. Join a host of industry professionals in Johannesburg, South Africa from 16-18 April 2013 to discuss the way forward to Air Traffic Management in Africa and maximise your presence and give yourself the best possible chance of influencing key decision makers. For more information, visit [www.afriskyforum.com](http://www.afriskyforum.com)
