

Conference focuses on private equity, venture capital

The 10th Annual Conference of the Africa Venture Capital Association (AVCA), an industry gathering in the area of private equity, is scheduled to take place at the Westin Cape Town Hotel, South Africa from 8-10 April 2013.

The 10th Annual Conference of the Africa Venture Capital Association is an opportunity where top decision-makers in the sector can meet to advance the African Private Equity market and the investment climate on the continent.

More than 300 participants - representing industry and African private equity and venture capital firms, institutional investors, foundations, international development institutions and global professional services firms - are expected to attend the meeting.

This year's conference theme will focus on "Exceptional growth, outstanding returns", since AVCA's work is essential to the development of financial markets in Africa - as efficient markets develop when adequate and relevant data are available.
