

## Celebrating Google+ in Cape Town

Cape Town's social trendsetters are invited to join the online action as Google hosts a series of exclusive social and networking events for Cape Town's media, marketers, social managers and creatives at its temporary Google+ hub in Woodstock from 25-27 July 2012. It will celebrate with real examples of how people and organisations across the globe - from musicians to sport stars; charities to photographers - have been successfully using Google+ to engage and share. To attend, email Diana Mjojo at [mjojo@google.com](mailto:mjojo@google.com).
