

HMC Seswa bags more IT clients

HMC Seswa Corporate Communications has announced that they have acquired two new clients in the IT space - Map IT and Business Systems Group [BSG].

Map IT is at the forefront of creating innovative digital maps and navigation. They have acknowledged the demand for developing advanced mapping software and intelligent spatial information.

BSG specialises in delivering business and software solutions to leading corporate solutions in South Africa and the African continent. BSG's services also include providing expert solutions to technological problems.
