

Space Ibiza comes to Joburg

This year Space Ibiza commemorates its 25th anniversary and as part of its 25 Years, 25 Cities anniversary tour, Space Ibiza will visit 25 cities around the world - including Joburg - for a night of world-class DJs, music and entertainment at Sandton Central, Block Party on 29 November, 2014.

The Space Ibiza 25 Anniversary Tour will transform Sandton for one night only into the essence of Space Ibiza: 12 of the world's best international electronic dance DJs, SA's top local electronic music talent, two dance floors - and one massive block party.

With its official tour, Space Ibiza's intention is to transport its whole atmosphere of the White Island to Joburg: expect top performances, world-class production and lighting in an incredible venue, infused with the genuine feel of its Space Ibiza origins.

The first phase of international DJs on the 12-strong line-up are:

- Yves V (Belgium);
- WolfPack (The Netherlands);
- Congorock (Italy);
- Felix Cartal (Canada);
- Gelab (Spain);
- Danny Marquez (Spain);
- New_ID (The Netherlands);
- Glowinthedark (The Netherlands); and
- Prok & Fitch (the UK).

The second phase of DJs will be announced within the next few weeks.

Tickets
