

# 1time calls time on Lanseria

1time Airline has announced that it will be withdrawing all of its flights to and from Lanseria International Airport with effect from 2 June 2012.

1time Airline CEO, Blacky Komani says that the retraction of the Lanseria routes was motivated by a decision to optimise its overall operations.

"We have taken the decision to consolidate all our local and regional flights from OR Tambo International Airport and concentrate on our African projects that are currently underway. Pending seasonal demand, and commercial viability of the airport, we may look at reviewing our Lanseria services in the future."
