

Hyundai's H1 returns with redesign, new features

South Korean vehicle manufacturer Hyundai has unveiled its newly redesigned H1 Bus with several additional features. New 17-inch alloy wheels have been added to the 2.5 turbodiesel derivative of the H1 range along with an infotainment centre while the panel van will still be equipped with 16-inch steel wheel rims.

The steering wheel may also be adjusted for reach as well as height and a rear camera as parking assistance, with display in the rear-view mirror, has also been added as a luxury feature in the H1 2.5 Turbodiesel Bus.
