Dear Sir

Meridian College Start with sport and culture to create more possibilities for our learners. This will not only benefit and have a huge advantage to our learners but also to our country and our Phalaborwa town with learners that are occupied with things they enjoy.

To put this in place we need to look at the needs of the school and their learners. We are in need of lots of equipment and appropriate outfit for the sport. We are also in need to upgrade the facilities and replace some of the stuff that are no longer in working condition. All this will work out the minimum of R20,000 which our school will find impossible to pay.

We do not receive any financial support from the department of schools; therefore we only depend on fundraising projects, donations and the community.

We would like to friendly ask your company to help our school with any donations or sponsors to invest in our young learners that are the future leaders of tomorrow. Let us build together for a brighter future for our children and community.

You're sincere
Hannes Faber
