

MTN Bushfire performers announced

The latest confirmed artists for MTN Bushfire, which is to be held from 29 to 31 May, 2015, have been announced. The artists reflect a wide range of musical styles and cultures - hailing from as far afield as Australia, Turkey and Austria - as well as from African countries closer to home.

These artists are just the latest in a long list of performers, including recently announced headliners, Grammy-nominated artists Les Nubians. The majority of artists are still to be announced in the forthcoming weeks.

The latest list of confirmed artists includes:

Black Jesus Experience (Australia): Black Jesus Experience blends traditional Ethiopian music with modern hip hop and funk grooves. Their rhymes and chimes deliver the musical strength and beauty of Africa through the vocal prism of hip hop and the freedom of jazz;

Bongeziwe Mabandla (SA): Two-time SAMA nominee Bongeziwe Mabandla has been making waves at home and overseas with his perfect blend of urban-African folk. He has performed at festivals in Germany and Spain, as well as opening for the likes of Joss Stone during her South African tour;

123 (Turkey): Since their formation in 2004, the Turkish indie pop band 123 have been dazzling audiences with their intriguing stories and dreamy melodies. They released their debut album, 'Aksel', in 2009, which told the story of a boy named Aksel, an owl and a whale;

Banda Kakana (Mozambique): Banda Kakana has become a leading representative of a new generation of Mozambican bands, following in the celebrated footsteps of groups like Ghorwane, Eyuphuro and Orquestra Marrabenta Star of Mozambique;

Starting from a traditional guitar singer songwriter approach he has now accomplished the integration of his great skillset creating almost orchestral arrangements live on stage merely relying on a violin and his favourite sidekick - the loop pedal;

DJ Okapi (SA): DJ Okapi digs up South African 'bubblegum/disco' gems from the late-80s and early 90s, showcasing individual releases and collecting tracks onto mix tapes that he features on his Afro-Synth blog;
