

Suzuki launches upgraded Grand Vitara Summit

The upgraded Suzuki Grand Vitara Summit is instantly recognisable by the updated grille, now finished in dark silver, while the roof rails are now finished in silver.

The 18-inch alloy wheels also boast a new, dark silver finish. In addition, Suzuki has added a new colour, New Premium Silver, to the list of available exterior hues.

The interior features champagne gold trim accents for the steering wheel, instrument dial surrounds, side vent bezels and gearshift knob, while the door panels feature cloth-accented trim with prominent stitching. The seat upholstery has also been updated, and features cloth upholstery with suede-enhanced bolsters.

The Grand Vitara Summit remains mechanically unchanged, and is still powered by a 2.4-litre four-cylinder petrol engine, linked to a choice of either five-speed manual or a four-speed automatic gearbox.

Power output

Rated maximum power output is 122kW at 6,000r/min, coupled to 225Nm of torque at 4,000r/min. Unique in this segment, the Grand Vitara is equipped with an all-wheel drive system linked to a low-range transfer case, ensuring exceptional off-road capability.

A comprehensive standard equipment list include remote central locking, air-conditioning, power steering, electric windows, a four-speaker CD sound system and cruise control. Safety is also thoroughly addressed via dual front airbags, inertia reel seatbelts, head restraints, and ABS-assisted brakes with electronic brake force distribution (EBD), and emergency braking assistance (EBA).

The four-model Suzuki Grand Vitara range is covered by a three-year/100,000 km warranty, while a six-year/90,000 km service plan is standard.
