

Aviation Africa 2015 welcomes main sponsors

The Aviation Africa 2015 Summit & Exhibition will be held on 10 and 11 May 2015 in Dubai in the United Arab Emirates. The summit will focus on strategies, opportunities and the challenges affecting the aviation industry.

NEXUS from Saudi Arabia and Wyvern Consulting from the USA have joined up with the event to become main sponsors. The link with these two companies is a perfect fit for the Aviation Africa event, which has launched to address the growth opportunities in the African continent for the aviation industry.

NEXUS, which launched in 2010 and is based in Jeddah, has opened a regional office in Rwanda and already identified the opportunities the region can offer. Wyvern Consulting has been providing safety intelligence data and onsite risk assessments to business and private aviation communities for over 20 years. NEXUS are now their international partner covering the Middle East, Asia and Africa regions.

A key focus area will be the safety challenges in the region. NEXUS provides flight operations and support with a massive commitment to safety and with Wyvern Consulting supplying the safety intelligence data, this partnership will have a lot to contribute to this focus area.
