Chief Commercial Officer (CCO) Ethiopian Airlines, Busera Awel said, "Serving Africa is our prime commitment as a Pan-African carrier, and increasing services to Cape Town, known for Table Mountain, is part of this commitment. The increase in flight frequencies to Cape Town, our third gateway in South Africa, will enable tourists and business travellers to enjoy convenient connectivity options to and from 95 Ethiopian global networks on board our state-of-the-art fleet, Boeing 787.

Furthermore, our 10 times weekly service will enhance capacity to over 400% in a year's time. We always strive to offer the best possible passenger and cargo services the industry has to offer, including a wide variety of meal services with the newly inaugurated modern In-Flight Catering facility, served with a multiple award-winning in-flight service."
