

EmptyTrips launches SureFox cargo insurance

Launched today, SureFox Instant Cargo Insurance, powered by EmptyTrips, aims to make enterprise cargo insurance accessible online.

Reportedly for the first time, cargo owners and transporters shipping within, to, and/or from South Africa can purchase marine and GIT cargo insurance cover instantly, digitally. Most cargo types with a value of up to R8m (±\$660k) can be insured.

Says Benji Coetzee, founder and CEO of [EmptyTrips](#): “The launch of this new service offering is a natural step forward for us as we build a full suite of digital on-demand logistics products. From an online rail freight open exchange (RailFOX) to an on-demand warehousing solution (StoreFOX).”

The startup has collaborated with Nacora Insurance Brokers (part of with Kuehne + Nagel global Freight Forwarders) on this initiative.

#WomensMonth: Benji Coetzee's EmptyTrips revolutionises logistics
