

All the 2014 Clio Awards South African winners

The Clio awards winners have been announced and South African agencies walked away with three Gold, six Silver and eleven Bronze.

"The South African radio renaissance continues as we garner eleven of our twenty Clio awards in the Radio and Radio Crafts categories. While FCB's "Coke Rainbows" didn't do as well for the country as we would've liked, Ogilvy's "Lucozade" and M&C Saatchi's "Haven Night Shelter" continued on their winning ways. What is concerning, however, is we didn't register a single finalist in Digital or Integrated. If we are to be truly competitive on the world stage, we need the big, sticky ideas that get executed with the scale and budget only high-level client buy-in can deliver. Now that we have Coca Cola onboard as The Creative Circle's official partner, we'll be launching some initiatives to showcase the power of creativity as a business tool to South Africa's marketers that will hopefully get us some more traction in the Integrated and Digital categories. Watch this space." - Justin Gomes, Creative Circle Chairperson.
