

DigiCon Africa 2018

DigiCon Africa 2018 is part of the successful Chief Digital Officer Africa series. The events are meeting places for CIOs, CDigOs, leaders and innovators charged with navigating the digital transformation journey within their organisations.

DigiCon Africa 2018 gives strategic pioneers and technical implementors, from a diverse cross-section of industries, the opportunity to discuss their digital transformation programmes, back office optimisation projects and customer experience initiatives.

Digital Transformation is greater than a technology shift; it is a change in culture which enables agility and adaptability in an ever-changing world.

DigiCon Africa 2018 is part of the successful Chief Digital Officer Africa series. The events are meeting places for CIOs, CDigOs, leaders and innovators charged with navigating the digital transformation journey within their organisations.

DigiCon Africa 2018 gives strategic pioneers and technical implementors, from a diverse cross-section of industries, the opportunity to discuss their digital transformation programmes, back office optimisation projects and customer experience initiatives.

The entanglement of tech and agile strategic thought is shaking up all industries across the globe. No longer can we avoid the rate of change around us.

It is time to embrace Digital Transformation.

DigiCon Africa is a discussion-driven knowledge-sharing conference for all digital leaders and innovators changing the way we interact and do business. This is the meeting place for all you who are looking to make a change in the way we think, respond and react.

Date: 23 October 2018 to 24 October 2018

Time: 09:00 - 18:00
