

Nashua Mobile Glomail partnership

Nashua Mobile has extended its retail footprint with Glomail partnership to increase its retail footprint and make its products and services accessible to customers wherever they are.

Nashua Mobile products are now available in over 50 Glomail stores in prime retail locations since 8 December 2012. Glomail customers will be able to sign up for Samsung deals available on all major networks, in time for the festive season. There will be a range of other specials on offer exclusively through Glomail stores.

"We are excited to add these stores to our retail footprint, making our products and services accessible at even more major retail locations throughout the country. With its innovative approach to retail, stores in many major shopping centres and well-established brand, it is a great partner for us as we expand our distribution footprint," says Krisen Govender, chief officer consumer.
