

## 369 designs opens in Johannesburg

Cape Town-based 369 designs, founded by Dominique du Toit, has opened a branch in the northern suburbs of Johannesburg. "The business has expanded at an incredible pace and we would like to offer more [Joburg] and KZN [KwaZulu-Natal] based companies our turnkey services," says du Toit. "We have had requests from prospective and current international and Gauteng clients to assist with stand building and opening this branch will enable us to offer them more competitive rates."
