

WorldVentures expands to Puerto Rico

WorldVentures has announced that it has now expanded its vacation membership to Puerto Rico. The international direct seller of vacation club memberships also has a presence in South Africa, Zimbabwe, Kenya, and Botswana.

Known for its beautiful beaches, lively cultural events and music, the island has been on the company's radar for quite some time. In addition to Puerto Rico, WorldVentures offers its DreamTrips Memberships and business opportunities for entrepreneurs in 26 worldwide markets.

Top vacation destination

"The expansion of our products and services in Puerto Rico speaks to the tremendous growth our company has experienced in the last eight years," WorldVentures co-founder and CEO, Mike Azcue, said. "Puerto Rico is one of the world's top vacation destinations, so it was only natural for us to envision WorldVentures there to bring personal freedom and fulfillment to those who will join our team."

WorldVentures now offers Puerto Rican travel enthusiasts the opportunity to purchase an exclusive travel club membership offering superior value. Members of the award-winning vacation club enjoy unique global travel experiences along with discounts on local entertainment deals. This is also an opportunity for aspiring Puerto Rican entrepreneurs who would like to sell DreamTrips Memberships to new travel aficionados in any of WorldVentures' markets.
