

African Movie Channel Series launches on Zuku

African Movie Channel has launched a new channel, African Movie Channel Series (AMC Series), on Wananchi's Zuku Pay TV platform. AMC Series is a premium African entertainment channel showcasing top TV soaps, comedy and drama from Nigeria, along with some of the best from the rest of Africa, 24 hours a day for the whole family.

Says Yinka Mayungbo, African Movie Channel's Co-founder and Director: "We have a plethora of African talent bursting with creative energies and routinely churning out five-star content. This new channel is the perfect medium to showcase their fantastic works illustrating the rich African narrative. We are delighted to work in partnership with Zuku who have demonstrated a strong commitment to African programming."

Paul Healy, Chief Product & Marketing Officer for Zuku says: "This is a second first for us - we were the first TV platform to carry African Movie Channel in Africa back in 2012. AMC is a trailblazer, leading the way in a sphere that has been predominantly cultivated by international rather than domestic productions. We are excited to be furthering our partnership with AMC that translates to fresh, innovative and affordable entertainment with the launch of AMC Series on Zuku."

AMC Series broadcasts on channel 229 on both Zuku Cable and DTH.
