

Ushahidi's launch event to be broadcast live

Ushahidi put crowdsourcing on the map and is changing the way information flows again. The Kenyan-born tech company will announce a total re-imagination of its flagship service on Wednesday 30 September from the Kenya National Theatre, and broadcast live video from the event at [Ushahidi.com](https://www.ushahidi.com).

The broadcast will be available from 7 to 8 p.m. EAT, and a recording will be available at [ushahidi.com/blog](https://www.ushahidi.com/blog) shortly after the event.
