25 February 2016

**TO WHOM IT MAY CONCERN**

Grapevine has played a very proactive role in telling the XLink story over the past eleven years.

XLink, starting as a young business needed to gain the trust of the Banks and Retail Sector and, with Grapevine's assistance, our story became well-publicised in leading publications, which bolstered our reputation in what is a very trust-based segment.

Not only did Grapevine assist with the overall business profiling but also, through their PR expertise, managed to profile XLink's key individuals as trusted advisors.

The part that I most appreciated with our interaction with Grapevine was that they took time out to understand our business and ensured that there was strong follow through which in turn produced good results for the XLink business. The media section on the XLink website provides a good sense of what has been published in a relatively short space of time.

Should you require any further information in this regard, please do not hesitate to contact Stacey Di Nicola, XLink's Executive Marketing and Customer Experience Officer, or myself.
