

Second IoT Forum Africa conference kicks off

The second Internet of Things Forum Africa (#IOTFA2018) conference will take place from 14-15 March 2018 at the Gallagher Convention Centre in Midrand.

Under the theme, 'Powering a new era of operational transformation', visionaries, thought leaders, industry luminaries, and expert practitioners will gather to share their knowledge of real-world IoT trends, challenge and solutions with delegates.

IoT Forum Africa 2018 will showcase some of the latest technology solutions by Africa's biggest IoT players. The event will tackle IoT strategies to unlock true business value, realising positive outcomes and digital transformation with IoT as well as how artificial intelligence drives IoT to the next level amongst other topics.

The event will feature industry tracks with speakers discussing the potential impact of IoT in manufacturing, energy, finance, transportation, retail, security, mining and in government.
