## **Pokémon: Detective Pikachu**

The first-ever live-action *Pokémon* adventure stars Ryan Reynolds as Detective Pikachu and is based on the beloved *Pokémon* brand – one of the world’s most popular, multi-generation entertainment properties and one of the most successful media franchises of all time. The story begins when ace detective Harry Goodman goes missing mysteriously; prompting his 21-year-old son Tim to find out what happened. Aiding in the investigation is Harry’s former Pokémon partner, Detective Pikachu – a hilariously wise-cracking, adorable super-sleuth who is puzzled even to himself.

Finding that they are uniquely equipped to work together, as Tim is the only human who can talk with Pikachu, they join forces on a thrilling adventure to unravel the tangled mystery. Chasing clues together through the neon-lit streets of Ryme City – a sprawling, modern metropolis where humans and Pokémon live side by side in a hyper-realistic live-action world – they encounter a diverse cast of Pokémon and uncover a shocking plot that could destroy this peaceful co-existence and threaten the whole Pokémon universe.

Directed by Rob Letterman, from a story by Dan Hernandez and Benji Samit and Nicole Perlman, screenplay by Dan Hernandez and Benji Samit and Rob Letterman and Derek Connolly, based on the “Detective Pikachu” video game developed by Creatures Inc.
