The deaths of prominent Hip Hop musician DJ Dimplez and Australian cricketer Shane Warne early on in March dominated the search results. South Africans' love of sport was clear with seven of the top ten search terms for sporting fixtures and events. The Women's Cricket World Cup ranked eighth on the list, after the South African women's cricket team kept the country on the edge of their seats throughout the series.

The top two searched questions were both health-related questions linked to celebrities in the news. Following the Oscar slap incident, people turned to Google for more information on alopecia, the hair loss condition that actress Jada Pinkett Smith has been diagnosed with. People also sought out more information on aphasia, after actor Bruce Willis's family announced he would quit acting after being diagnosed with the condition which affects the ability to speak, read and write.

Here's what South Africans wanted to know in March:

Top searched questions

1. What is alopecia / what is alopecia disease?
