

Minister de Lille inspects R54m tourism project at Cape Agulhas National Park

Minister de Lille, accompanied by Mayor Paul Swart of the Cape Agulhas Municipality, Deputy Mayor Cllr Helen Coetzee of the Overberg District Municipality, and other regional councillors, recently visited the Lighthouse Precinct project within the Cape Agulhas National Park. The project is among several infrastructure developments undertaken by the Department of Tourism nationwide, aligning with the objectives of the Tourism Sector Master Plan. These endeavours aim to boost tourism demand through investments in new infrastructure and the upkeep of existing attractions.

The Lighthouse Precinct Project in the Agulhas National Park in the Western Cape is worth a R54.9 million investment by the Department of Tourism into this area to ensure that this site remains attractive to visitors and supports tourism development in the surrounding communities.

Minister de Lille visited the project today with councillors from the Agulhas Municipality and Overberg District Municipality to inspect progress on site and to impress on all stakeholders the importance of working together to grow the country's tourism offerings.

The project is being implemented together with SanParks and overall progress on site is now at 73% and is anticipated that the project will be completed in June this year.

The Agulhas National Park is located in the Southern Overberg region of the Western Cape Province and stretches along the coastal plain between the towns of Gansbaai and Struisbaai and includes the southernmost tip of Africa.

The project was funded in two phases. Phase 1 was completed in 2018. Phase 2 is currently under construction.

The Phase 2 – Agulhas Light House Precinct project includes:

- Construction of a restaurant
- Interpretation centre (including vendor stalls, ablution facilities, curio shops, booking office and lecture theatre)
- Construction of reception area/offices
- External works and bulk infrastructure

The project also has significant socio-economic benefits as so far the project has employed 77 people including 48 Youth, 50 women and 2 persons with disabilities during construction while 8 sub-contractors from surrounding communities were also employed on the project to do work such as brick and steel work stone cladding. laying of kerbs and channels. electric works, plumbing and roofing.

“Investment in infrastructure by government shows the private sector that we are serious about growing our tourism offering and by government investing, we are creating the conditions conducive for further investment by the private sector. As a top tourist destination, we remain committed to constantly diversify and growing our tourism offering so that we remain an attractive destination that keeps visitors coming back” Minister de Lille said.

The Cape Agulhas Lighthouse Precinct Project is one of 25 maintenance projects being implemented by the Department across the country as committed to in the Minister’s budget speech in May 2023.

Twenty-two of these projects are now at practical completion whilst three are still under construction.

The total value of the of the 25 maintenance projects is R94.9m and together these projects have so far created close to 300 jobs.

The Department of Tourism also has several Community-Based Tourism Infrastructure Projects underway the bulk of which are the development or upgrading of accommodation facilities.

One such project is the Mdluli Lodge near Numbi Gate in the Kruger National Park and we are working with the Mdluli Traditional Council on this project.

A total of 29 community projects are underway for this financial year in the Eastern Cape, Limpopo, Free State, North West, Kwazulu-Natal, Mpumalanga and the Northern Cape.

Of these 29 community-based projects, 4 four projects are at practical completion, 21 in construction and the remainder are at the planning and procurement stage.

The total value of the of the above community projects is R676.44m and so far these community projects created 605 jobs.

All stakeholders were pleased with the progress on-site at the Cape Agulhas Lighthouse Precinct Project and we agreed that we must continue working as partners – the Department of Tourism, SANParks, the Cape Agulhas and the Overberg District Municipalities to ensure that this project continues to benefit this area for many years to come. We must work together to ensure its continued success and to ensure that this attraction is properly maintained and looked after so that it can bring economic benefits to tourism and the surrounding communities,” Minister de Lille added.
