

Navigating uncertainty: How Trump's turbulent leadership propels gold towards new heights in 2025

US President Donald Trump is a gold bar's best friend.

The precious metal has extended its scorching record run into 2025 and shows no signs of cooling down. Trump raises the political temperature on the global geopolitical stage.

This week gold's price scaled new peaks at over \$2,840 (R52,785) an ounce as every Trump pronouncement dropped jaws and gave markets whiplash.
